

REGULATION BEST INTEREST DISCLOSURE DOCUMENT

February 18, 2026

This document should be read together with Form CRS-the Customer Relationship Summary to fully understand our products, fees and conflicts of interest.

Introduction

U.S. Boston Capital Corporation (referred to as “we,” “us,” or “USBCC” or “U.S. Boston” provides this Regulation Best Interest Investor Disclosure Brochure (the “Reg BI Disclosure,” “Investor Disclosure Brochure,” to our retail clients (hereafter “you” and “your”) to inform you about the services we offer and our relationship with you. Among other things, this Reg BI Disclosure addresses the scope and terms of our relationship with you; the capacity in which we are acting; the type and scope of our services; any material limitations on our services; the fees and costs associated with your holdings, accounts, and transactions; and the conflicts of interest that exist for us and our advisors.

U.S. Boston is registered with the Securities and Exchange Commission as both a broker/dealer and an investment adviser. Our brokerage and investment advisory services and fees differ, and it is important for you to understand these differences. Our brokerage services are the focus of this Investor Disclosure Brochure please also refer to Client Relationship Summary (“Form CRS”) available at <https://usboston.com/>. The Form CRS contains important information about the types of services we offer along with general information related to compensation, conflicts of interest, disciplinary action and other reportable legal information.

Free and simple tools are available for you to research firms and financial professionals at www.investor.gov/CRS, which also provides educational materials about broker dealers, investment advisers, and investing. Additional information about USBCC and its financial professionals is available on FINRA’s website at <http://brokercheck.finra.org>, <https://adviserinfo.sec.gov/firm/summary/5251> and our website <https://usboston.com/home/>

While we take reasonable care in developing and making recommendations to you, securities involve risk, and you may lose money. There is no guarantee that you will meet your goals, or that our recommended investments and strategy will perform as anticipated. Please consult any available offering documents for any security we recommend for a discussion of risks associated with the product.

Capacity, Products and Services We Offer

Capacity

U.S. Boston is registered with the Securities and Exchange Commission as both a broker/dealer and an investment adviser. Our brokerage and investment advisory services and fees differ, and it

is important for you to understand these differences. Our financial professionals may be limited in the services and investments they can offer you due to the securities licenses they hold. They will discuss such limitations with you as well as the products/services they can provide. Our brokerage services are the focus of this Investor Disclosure Brochure. For more information about our advisory services please see our Form ADV brochure <https://adviserinfo.sec.gov/firm/summary/5251>

We offer different account types for your brokerage account, including, but not limited to, accounts held with our clearing firms; accounts held directly with the issuer of the securities purchased (sometimes referred to as directly held accounts); education accounts (e.g., college savings plans); retirement accounts (e.g., IRA accounts), where your investments will be held with the custodian of the IRA; and certain specialty accounts (e.g., margin accounts).

In brokerage relationships, investors pay transaction-based fees in connection with the products and services they receive, such as buying and selling stocks, bonds, mutual funds, and other investment products. These include commissions, transaction fees, loads and sales charges. Compensation to USBCC includes commissions, transaction fees, trail commissions, loads and sales charges that are embedded in the purchase price.

Our financial professionals offer brokerage services to retail investors in either an administrative services capacity, or a transaction only capacity. Administrative services include periodic meetings to discuss your financial situation, including planning retirement savings strategies, tracking some or all your assets on a quarterly, semi-annually or annual basis, as well as administrative and planning services, such as assisting you with RMD calculations, cost basis analysis, tax filings. Transactions only clients do not pay an administrative fee. For broker dealer client relationships, we do not offer investment monitoring services.

Our financial professionals do not make investment decisions for you or manage your brokerage account on a discretionary basis. Because our financial professionals do not have discretionary investment authority, this means that we cannot buy or sell investments in your brokerage account without first obtaining your consent. Our financial professionals may recommend investments to you, but you are responsible for making the decision whether to purchase or sell investments, and we will only purchase or sell investments when specifically directed by you.

When we act in our capacity as a broker-dealer, we are subject to the Securities Act of 1933, the Securities Exchange Act of 1934, as amended, the rules of self-regulatory organizations, such as the Financial Industry Regulatory Authority, Inc. (FINRA), and applicable state laws.

When we provide investment advice to you regarding your retirement plan account or individual retirement account, we are fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. The way we operate under the special rule requires us to act in your best interest and not put our interest ahead of yours.

We are making investment recommendations to you regarding your retirement plan account or individual retirement account as fiduciaries within the meaning of Title I of the Employee Retirement Income Security Act and/or the Internal Revenue Code, as applicable, which are laws governing retirement accounts. The way we operate under the special rule requires us to act in your best interest and not put our interest ahead of yours.

Under this special rule's provision, we must:

- Meet a standard of care when making investment recommendations;
- Never put our financial interests ahead of yours when making recommendations;
- Avoid Misleading statements above conflicts of interest, fee, and investments;
- Follow policies and procedures designed to ensure that we give advice that is in your best interest; and
- Give you basic information about conflicts of interest.

Products

While we have access to a wide variety of investments, we typically offer clients a limited menu of investments.

Proprietary Mutual Funds: Our primary offerings for mutual funds are the Pear Tree Funds. We are the distributor of the Pear Tree Funds and are affiliated with Pear Tree Advisors, Inc., the investment manager and transfer agent for the Pear Tree Funds. We offer a limited number of non-proprietary mutual funds.

Money Market Mutual Fund. If you want us to help facilitate money movement using your money market fund such as to purchase an investment or to fund personal expenses, we offer only one mutual fund, the Dreyfus General Money Market Fund. As the broker-dealer on your account and with permission from you, Dreyfus allows us to act on your instructions to move money into and out of your Dreyfus General Money Market Account. This money market mutual fund charges a 12b-1 fee. This fee is charged based on the assets held in your account. We receive a portion of the 12b-1 fee. For more information see the prospectus at <https://im.bnymellon.com/us/en/individual/funds/370375107#?section=performance>.

Private Placements: We act as placement agent for proprietary and non-proprietary private placements. Most of the private placements we offer are managed by Pear Tree Partners, LP, an affiliate exempt reporting investment adviser. Private placement securities are speculative, illiquid, and carry a high degree of risk – including the risk of loss of the entire investment. Private placements are not registered or listed for trading on any public exchanges and consequently have limited or no transferability. As a result, you may not be able to liquidate your interest in an issuer. Because of a variety of restrictions upon the transferability of the issuance, including restrictions imposed by federal securities laws, you may be required to retain their investment indefinitely. There may never be a market of any kind for the purchase and sale of the interests which increases the overall risk of the investment. The risks of each issuer are unique therefore it is extremely important for you to review the offering documents and their offering material, understand the unique risks of the particular investment under consideration, and ask additional questions about the business practices and risks.

General Securities: While we offer the ability to buy and sell stocks and bonds and other securities through a brokerage account held at a clearing broker, these accounts are offered solely as accommodation for those clients who hold such securities. We do not maintain a research department and do not analyze specific companies' securities and generally do not recommend that clients purchase individual equity or fixed-income securities. Our financial professionals make recommendations regarding these securities in limited circumstances. Examples include improving the total diversification of assets in your portfolio such as asset allocation, tax considerations or to assist in the sale of restricted stock or other concentrated positions.

Other Products: While we can provide and recommend additional products at your request or when it is in your best interest, we realize some clients may want different services and products. Therefore, you may wish to seek other financial professionals who may offer products and services better designed to meet your needs.

While we will take reasonable care in developing and making recommendations to you, securities involve risk, and you may lose money. There is no guarantee that you will meet your investment goals, or that our recommended investment strategy will perform as anticipated. Please review any available offering documents for any security we recommend for a discussion of risks associated with the product.

Services

Account Monitoring: As a client, you may choose to limit your relationship with us to transactions only. We also offer an administrative service relationship that consists of periodic meetings to discuss your financial situation. We do not offer investment monitoring services (e.g., daily, weekly, monthly, etc.) that some investment professionals offer. For example, some financial professionals may review daily, weekly and monthly reports and adjust your portfolio based on market conditions or other factors. If you prefer on-going monitoring of your account or investments, you should speak with your financial professional about whether an advisory services relationship is appropriate for you.

Minimum Investment Amounts: USBCC does not require any investment minimums. However, some mutual funds and other investments, such as private securities, may have investment minimums or may charge higher fees to clients with balances below certain thresholds.

Account recommendations

USBCC recommends different types of accounts for you depending on your needs, objectives, investment strategy and goals. Account types include mutual fund accounts, brokerage accounts, 529 Plans, retirement accounts, as well as recommendations to roll over or transfer from one type of an account to another (e.g., a workplace retirement plan account to an IRA). In order to receive any of our brokerage services described above, you must first open an account with us. We offer account types with different features and benefits that are intended to address different needs and objectives of our clients.

Revenue from Transactions

A. Revenue from Clients

Our brokerage revenue from clients includes:

- 1. Commissions:** We receive commissions you pay when you buy or sell equities and fixed-income investments (this applies when we act as agent or broker) through a brokerage account held at our clearing broker. Please see commission schedule at Exhibit A. We share this revenue with your financial professional. We are paid each time you trade in your brokerage account or make a new investment. This payment is typically called a “commission,” but it may also be called a “sales charge”. Reference your confirmation which provides you with the details of your transaction.

This kind of payment presents a conflict for us because it creates an incentive to encourage you to trade more and make additional investments.

- 2. Sales loads:** Sales loads (sales charges), commissions or concessions derived from the offering and sale of various managed investments such as mutual funds and 529 Plans. A commission, or sales load, is typically paid at the time of the sale and can reduce the amount available to invest. For more information about other commissions that apply to a particular transaction, please refer to the applicable product disclosure form, investment prospectus, or offering document. We share this revenue with your financial professional. We are paid each time you trade in your brokerage account or make a new investment. This payment is typically called a “commission,” but it may also be called a “sales charge”. Reference your confirmation which provides you with the details of your transaction.

This kind of payment presents a conflict for us because it creates an incentive to encourage you to trade more and make additional investments.

Fees and expenses can vary widely from fund to fund or fund class to fund class. Compare how sales loads, fees and other mutual fund expenses can impact your return using FINRA’s Fund Analyzer tool at https://tools.finra.org/fund_analyzer/.

More information on a mutual fund’s risks, sales charges, ongoing fees and expenses, and overall expense ratio is available in the mutual fund’s prospectus. You can request a copy of a mutual fund’s prospectus from your financial professional. You can also access prospectuses for mutual funds we offer at <https://www.sec.gov/>.

B. Revenue from Third Parties

Our revenue from third parties includes:

- 1. Trail Compensation and/or 12b-1 Fees:** Payments from mutual fund and 529 Plans in the form of distribution and/or service fees (12b-1 fees) and trail commissions are fully described in the applicable prospectus or offering document. 12b-1 fees and trails are typically paid from the assets of the investment product and the amount is calculated as an annual percentage of assets invested by you. The more assets you invest in the product, the more fees we earn. Therefore, we have an incentive to encourage you to increase the size of your investment. The percentage of assets received varies by product, which creates an incentive to recommend products paying higher trails. We share this revenue with your financial professional. This creates a conflict for your financial professional to recommend funds paying higher trail compensation. We manage this conflict by disclosing it to you.

The ongoing 12b-1 trail payment depends on the class of shares but is typically between 0.25% and 1% of assets annually.

This kind of payment presents a conflict for us because it creates an incentive to encourage you to trade more and make additional investments.

- 2. Private Placements:** The specific fees vary based on the particular type of fund offered. Generally, compensation for these types of products is embedded in the subscription amount you pay for your interest in the private offering. We may receive placement fees up to 6% of your investment commitment. We or an affiliate or associated person may also receive trail payments on an ongoing basis during the investment period: of the management fee the fund charges you, which can be up to 1% of the investment's value. We or an affiliate or associated person may also receive performance participation fees, fund profits, typically subject to a high-water mark or a specified minimum return threshold, as disclosed in the product's Offering Materials. Details of fees and other charges to your account are listed in each product's offering documents.
- 3. Noncash Compensation:** Third-party providers may also give financial professionals gifts up to a total value of \$100.00 per provider per year, consistent with industry regulations. Third parties may occasionally provide financial professionals with meals and entertainment of reasonable value. We want you to understand that this creates a potential conflict of interest to the extent that this may cause financial professionals to prefer those products that provide these noncash incentives. We address these conflicts of interest by maintaining policies and procedures regarding the sale and supervision of the products and services we offer to you, and by disclosing our practices to ensure you make a fully informed decision.
- 4. Finders Fees.** Also known as referral fees, are paid pursuant to an agreement between the parties when a prospective investor is introduced to an issuer and receive success-based or transaction-based compensation. We have entered into referral agreements. Any finder fee arrangements will be disclosed to you at the time of the referral. Compensation is based on the amount of the transaction as well as any out-of-pocket costs associated with the referral.

C. Fees and Costs:

Depending on the type of account you open, you will pay certain fees and incur certain costs in addition to the transaction-based fees described above. The fees associated with your account are typically paid annually. In some cases, the fees and costs associated with your account and holdings are assessed indirectly by third-parties, such as custodial firms or clearing firms.

Cash Sweep Vehicle: We have established a relationship with Ceros Financial Services, Inc. ("Ceros") and its clearing firm, National Financial Services, LLC ("NFS"). We recommend that our clients use Ceros, a registered broker dealer, member SIPC, as the qualified custodian. U.S. Boston is independently owned and operated and is not affiliated with Ceros. Accounts you open at Ceros/NFS have certain cash sweep vehicles where Ceros can earn 12b-1's. U.S. Boston does not earn this 12b-1.

Below is a list of fee categories that you will be charged by third-parties, such as custodial firms or clearing firms.

Fees may include but are not limited to:

- Annual Account Fees or Inactivity Fee
- Administrative Fee
- Account Transfer Fee
- Account Termination Fee

- Asset Registration Fee
- Administration Fee
- Margin Fee
- Wire Transfer Fee/Disbursement of Funds
- Paper Statement Fee

U.S. Boston Fees:

We offer brokerage services to retail investors in either an administrative service capacity, or a transaction only capacity. In the administrative service capacity, Clients pay an administrative fee via invoice to USB Corporation (USB), an affiliate, to cover administrative services. Such clients are charged an hourly fee or flat fee and the frequency of meetings are adjusted to reflect overall scope and complexity of services provided. Transactions only clients do not pay an administrative fee. For broker dealer client relationships, we do not offer investment monitoring services. Please reference Form CRS for more detail.

Conflicts of Interest

Proprietary Mutual Funds: Pear Tree Funds are proprietary mutual funds. An affiliate of ours, Pear Tree Advisors, Inc., is the investment manager. Pear Tree Advisors also acts as the transfer agent for the Pear Tree Funds. As investment manager, Pear Tree Advisors earns management fees that are based on the amount of assets in the Pear Tree Funds. As transfer agent, Pear Tree Advisors earns a fee for its services based on the assets in the Pear Tree Funds. These fees and other information are discussed in detail in the Pear Tree Funds' Prospectus and Statement of Additional Information which can be found at www.peartreefunds.com.

The Pear Tree Funds offer three share classes: ordinary shares, institutional shares and R6 shares. Ordinary shares are offered to retail investors and do not impose a sales charge but are subject to a 12b-1 fee as noted above under revenue.

Proprietary Private Placements: Most of the private placements we place are managed by an affiliate, Pear Tree Partners, LP. For Funds opened prior to 2024, once a private placement offering is completed, Pear Tree Partners acts as the managing member receiving the first \$50,000 if Pear Tree contributed the initial; 50,000 and up to 10% thereafter of all distributions. More recently, the Fund structure has been a management fee ranging from 1.00-2.00% and a carried interest of 20%. Certain employees of Pear Tree Partners have board observation rights or are board members for the private fund companies that Pear Tree Partners manages. This role may be compensated. From time to time some employees may become aware of information related to the private fund companies such as a pre-IPO, an upcoming merger or acquisition, or financial hardships. Our firm requires our Financial Professionals to disclose board membership as an outside business activity requiring compliance review and pre-approval. For more information about Pear Tree Partners please call 1-800- 331-1244 to obtain the firm's Form ADV brochure which is also found at <https://adviserinfo.sec.gov/firm/summary/152581>

Certain financial professionals of USBCC have ownership interests in Pear Tree Partners Management, LLC the general partner of Pear Tree Partners, LP. Certain financial professionals receive a percentage of USB Focus Fund distributions to Pear Tree Partners, LP as a result of this relationship. Certain financial professionals of USBCC have ownership interests in US Boston Growth Capital QSBS FUND GP LLC, the general partner of the QSBS Fund.

Non-Proprietary Private Placements: We and/or our affiliates receive all or a portion of the placement agent fees you are charged in connection with your purchase of an alternative investment that we recommend. We, or our affiliates or associated persons may also receive a portion of the fund's management fee and/or trailer on an ongoing basis during the investment period. We or an affiliate or associated person may also receive trail payments on an ongoing basis during the investment period. These fees give rise to a conflict of interest in determining which investments we recommend.

Financial Professionals' Conflicts of Interest: Our associated persons may have conflicts of interest beyond those described here and in our Form CRS. The associated persons will tell you of any additional material conflicts of interest at the time of a recommendation.

Retirement Plan Rollovers and IRA Transfers Conflicts of Interest. Recommendations to rollover retirement plan assets or to transfer IRA assets from another firm to a product offered by our firm poses a conflict in that the way we make money or otherwise are compensated creates some conflicts with your financial interests, so we operate under a special rule that requires us to act in your best interest and not put our interest ahead of yours. Accordingly, associated persons have an incentive to recommend products to which fees and/or other compensation may be earned. The firm maintains policies and procedures to mitigate this conflict.

When deemed to be in the client's best interest, we will provide investment advice regarding: a distribution from an ERISA retirement account; a rollover of the ERISA plan to an IRA; rollovers from one ERISA sponsored Plan to another; or from one type of account to another account (e.g., commission-based account to fee-based account). Such a recommendation creates a conflict of interest due to the potential for increased advisory fees, if any increase occurs, as a result of the transaction. No client is under any obligation to roll over a retirement account to an account managed by the Adviser.

Exhibit A

Commission Schedule Ceros via NFS

Principal greater than or equal to	But less than	Commission is:	Plus
\$0	\$2,500	1.70%	\$30
\$2,500	\$6,250	.66%	\$56
\$6,250	\$20,000	.34%	\$76
\$20,000	\$50,000	.22%	\$100
\$50,000	\$500,000	.11%	\$155
\$500,000		.09%	\$255

Example

If we process a \$20,000 equity transaction for a client, the client will pay a \$144 commission.

$\$20,000 \times .0022 = \$44 + \$100 = \144 which represents 0.72% of the value of the trade.
